

Honey Peeps

All

I woke up to see somebody staring at me
Through the window I knew it was you
That's how we first met I was watching you undress
I winked at you and you threw a shoe called the police

Honey please don't do this to me
I wanna ask you out for Saturday night
If you bail me out I know we can work it out
I picked you cause I knew that it felt right

You dropped the charges then you drove me home
That's when I knew we were alone
I did my best to thank you gave me your name and number
And said we have a date to pick you up and don't be late

Angeline 264-5783 the big house on the corner that looks like
A tangerine great big windows easy to see in
I took my chance and moved in

I turned on all my charm I put my arms around you
Explained the way I met you how I never meant to hurt you
Said you shouldn't be staring at me like that
But I couldn't turn down my first date since I moved to town

We went out for a year
One day her smile turned to tears
Said we can't go on
I've met somebody new the same way I met you yeah
And he nailed me with his charm

Honey please don't do this to me
Stick around I think that we can work it out
Maybe what we had was never meant to last
I still look in your window when I pass your house

Maybe what we had was never meant to last
I still look in your window when I pass your house
