## She's My Ex

She's my ex. I can't cross her from my memory She meant everything to me she meant every word she said When she said, "I'll never love again. Be my ex until the end. 11 And I know I'll never feel that way again She's just my ex She's my ex. She marks the spot where I'm the weakest one I can't expect she'll change her ways; can't accept the things she's done She's just my ex. Nothing more nothing less but she'll always be my ex She's my ex. Don't cross her path she still belongs to me She'll be my ex till I say when till I get her back again 'Cause I know I'll never love again. Never need another friend And I know I'll never feel this way again She's my ex. She'll cross my mind a thousand times today Still have a million things to say, guess I'm better off this w ay Cause I know she'll never love again. She 'll be my ex until the end And I know I'll never feel this way again She's just my ex. Nothing more nothing less but she's still my ex And I could never kiss that face goodbye But I could never stop to wonder why She looks so pretty, she looks so pretty And I know I'll never feel this way again She's just my ex
