

I know what time you will arrive
Cause I've been waiting for you every night
God no! you can't save me
My heart skips a beat

I hear footsteps down the hall
I've been waiting right behind your door
No one will hear
Don't you worry my dear

It's your eyes, your smile
It's your hair, your face
It's your life

I cut the cord on your phone
I've been secretly walking you home
God no! you can't save me
My heart skips a beat

Under your bed is my secret place
At night I keep the hair out of your face
No one will hear
Don't you worry my dear

It's your eyes, your smile
It's your hair, your face
It's your life
