This World

Don't think I can last too long in this world Don't feel like I belong in this world Stranded alone on this alien beach Everything is beyond my reach Don't think I can make my peace with this world

Don't think I can last too long in this world Don't feel like I belong in this world Stranded alone on this alien beach Everything is beyond my reach Don't think I can make my peace with this world

Don't think I can take a part in this world Ain't got he guts, ain't got the heart for this world All my promises and plans Run like water through my hands Don't think I can meet the demands Of this world

Liar, lover, loser, saint All I am, all I ain't It's too much to take But not so much to lose Don't feel like I can live in this world There's one alternative to this world Solo shotgun serenade Disconnect the plans I've laid There's no way, I have no faith in this world
