

Best Life

Allday

I drink too much just celebrating where I've come from
Remembering them days when I was fed on ramen
I smoke too much weed sometimes
I forget to function, I don't remember
When we even left the function

I found a bag of mushrooms in my friend's apartment
Ate like 50 now
I'm making friends with Martians
I'm drinking whisky like a cowboy
And I'm slick as Draco Malfoy
Oh, that's Allday yeah, that our boy, oh
You hate
You just sour, boy
Well now
Hop out the shower
She's fresh like citrus
I been reading books that don't have pictures
I been up and down
Got motion sickness
Think I'm really done digging myself ditches, oh

Oh, watch what you say to yourself
Because those words become spells
And those spells make a dark world
I say

Cause I'm living my best life
Til the next life
Like I always said I would
They always hold me, yeah right
Turning nothing into something
That's the best life
My best life
I'm living my best life

I'm living my best life
Til the next life
Like I always said I would
They always hold me, yeah right
Turning nothing into something
That's the best life
My best life
I'm living my best life

So do you drip in diamonds that could drown us?
Got cars you never drive you leave in empty houses
And if these seeds of insecurity should sprout up
Who charges you just to spray your weeds with round up

Tonight I smoke and I drink til we like the songs we hate
But I, I feel like Moses on the nights
We all escape
Part like the ocean like whoosh
When I'm on the track like swoosh
Now I don't look, but life is like 5 foot (short)
Yeah, had a hole in my heart like a donut (bang bang)

Taking it slow til I'm sewn up
Might eat a salad for a meal
I'm a grown up
I barely smoke no more, gotta focus
Just minding my business, mind yours
Til I'm rich and sad, suicide doors
Well I got people to provide for, no time off

Cause I'm living my best life
Til the next life
Like I always said I would
They always hold me, yeah right
Turning nothing into something
That's the best life
My best life
I'm living my best life

I'm living my best life
Til the next life
Like I always said I would
They always hold me, yeah right
Turning nothing into something
That's the best life
My best life
I'm living my best life
