

# Clouds

Allday

Pour it out  
Holy water  
I'm the alter  
Would you alter?  
Or just fall from grace?  
The choice is yours to make  
In the world full of wolves and snakes  
Poison apples and spoiled grapes  
Take caution and walk with haste  
And you may make it One. More. Day

Don't make it so complex  
I need to spend forever on this  
Wishing upon this bright comets  
And I always get what I wish  
And I been here doing, just what I wanted  
Roof leak, like go off and on  
No costume, no Comic Con shirt  
Off all the time like Jim Morrison  
Hotel room, drinking heavy  
I'm more than fine, don't be forgettin'  
Most of your girls probably obsessin'  
Always on road call me Pirelli  
Who drive the fastest?  
So hard this my catharsis  
Straight out in minus glasses  
Don't bother asking if I'm injustice

Don't worry 'bout me [x3]  
I'll be fine (I said)  
Unless I fall, from a cloud [x2]  
[x2]

Let's hit the south  
Oh lawd [x2]  
Just tell me if you're down  
Oh lawd [x2]

Don't make it so complex  
I need to spend forever on this  
Green lines talking about concepts  
Small minds get jealous and bitch  
I let my phone out, another favour  
Who the fuck it look like? Mother Teresa?  
My walls so thick call up the neighbour  
Same old me man, nothing changes  
I'm at the mall, thinking up rhymes  
Talkin' to yours, thinkin' she mine  
Say one word, she literally mime  
I fuck her in the store, she givin' me eyes  
Do everything for energy, besides sleep  
Don't see no one here besides me  
And I'm here to find, not to sight see  
Until they silence me man

Don't worry 'bout me [x3]  
I'll be fine (I said)

Unless I fall, from a cloud [x2]  
[x2]

Aye, yeah  
Unless I fall from the clouds  
Or, unless I fall  
I feel myself so hard it makes me sick
