

# God Starve the Queen

Allday

Bring roses to your door, saw it in the movies  
You're no fun anymore, why you being moody  
So I call my friends up, ask em what's happening  
And they tell me not much, why we still drifting?

Do I feel this way  
Yeah I feel this way  
It took a million days  
But it don't feel the same

God starve the queen, run around  
I don't feel a thing, run around  
God starve the queen, run around  
God starve the queen, run around  
You know what you think, run around  
God starve the queen, run around

Asleep at 6am, Runnin, Partying  
I usually just stay in, ain't nobody worrying  
Wonder how much is left, before I go and bust out  
Thinking of things you said, I'm not really fussed now

Do I feel this way  
Yeah I feel this way  
It took a million days  
But it don't feel the same

God starve the queen, run around  
I don't feel a thing, run around  
God starve the queen, run around  
God starve the queen, run around  
You know what you think, run around  
God starve the queen, run around

I don't know what you been told  
I didn't get here from thinking bout you  
I didn't get here from sitting round blue  
Or staring at my car and drinking down booze  
I don't know what you been told  
But I have heard what you been saying  
I don't see a reason why I need to keep waiting  
I don't see a reason why I need to keep waiting

Feel some type of way, let me know right now  
Feel some type of way

God starve the queen, run around  
I don't feel a thing, run around  
God starve the queen, run around  
God starve the queen, run around  
You know what you think, run around  
God starve the queen, run around
