

# What Do You Think?

**Allday**

Used to have bad problems  
Now my problem's good  
I ain't even bad  
I'm just misunderstood  
These girls can't keep my attention  
I've got A.D.D., stay out of my mentions with that fakery

My friends are flipping packs like an ATV  
Fronting gonna land you in the A&E  
You ain't really getting money  
That shit's make-believe  
That's a fairy tale  
That's some magic beans

Was the smart boy in the shitty job  
Good will hunting  
I was poor boy in the shitty clothes  
Good will hunting  
And they double tap the girls that I'm really fuckin'  
It could be you but I wasn't lucky

Nothing that you wouldn't do if you were me  
Ayahuasca Gatorade  
I can't go to sleep, and I've been smoking weed every minute of summer  
I've been smoking weed like Malia Obama

Did I go out late last night yeah  
What do you think?  
Fuck someone who I don't like yeah  
What do you think?

I play my role  
I know the lines yeah  
Same think every time yeah  
What do you think?  
When I pull up with my crew yeah  
And we looking stupid  
That's because we stupid  
Do you think I do yeah  
When I pull up with my crew yeah  
And we looking stupid  
Yeah we looking stupid

Used to have bad problems  
Now my problems good  
Took this shit from Collingwood to Hollywood  
Some old boys always talk about the way I look  
If they could live my life right now  
They probably would, right

We listen to a song until the feelings gone  
We make love so much we're feeling numb  
Drank too many drinks and now we're really drunk  
Spend too much on sweaters and ya know I'll only wear it once

I used to drive a bomb  
Yabadabadoo

Keep on online shopping  
I'll be back there soon yeah  
The good die young and I'm doomed  
Vodka in a crowded room  
Think I need a detox but you know I always had the juice

In my other's Kia to the studio  
Would spit the verse a thousand times  
Improve the flow  
Sorry mama but I never graduated  
Except from weed to ecstasy and those my happy places

Did I go out late last night yeah  
What do you think?  
Fuck someone who I don't like yeah  
What do you think?

I play my role  
I know the lines yeah  
Same think every time yeah  
What do you think?  
When I pull up with my crew yeah  
And we looking stupid  
That's because we stupid  
Do you think I do yeah  
When I pull up with my crew yeah  
And we looking stupid  
Yeah we looking stupid

Some nights I'm alone in space  
Some heartbreaks are with you to the grave  
Heading home in early morning dew  
What do you think I do?

Did I go out late last night yeah  
What do you think?  
Fuck someone who I don't like yeah  
What do you think?

I play my role  
I know the lines yeah  
Same think every time yeah  
What do you think?  
When I pull up with my crew yeah  
And we looking stupid  
That's because we stupid  
Do you think I do yeah  
When I pull up with my crew yeah  
And we looking stupid  
Yeah we looking stupid
