

# Misunderstood

Allele

It seems that I  
Don't know a thing about you  
So now I know  
What you came here for

Holding in  
I've been waiting for something real  
Now every time I think that I've been  
Misunderstood

The stones  
That you throw  
They'll never reach the bottom  
So now I know what you came here for

Holding in  
I've been waiting for something real  
Now every time I think that I've been  
Misunderstood

It's like you, a cancer  
It seeds down inside everything  
Holding in  
I've been waiting for something real  
Now every time I think that I've been  
Misunderstood
