

# Turn All Into Gold

Allen-Lande

At first it seems like there is no life  
No hope and no dreams  
Only embraced by the silence  
You know it's here the time has arrived  
When the past will be erased  
And all your dark thoughts will fade away  
You can change it  
Only you can  
Turn all into gold  
Make everything glow again  
Make the stars shine  
The world is yours and mine  
It burdens your heart, haunting your mind  
Knowing that you are the only one  
That can save yourself  
An army of ghosts whisper in your ear  
Making you hesitate  
Making you stay in the dark  
You can change it  
Only you can  
Turn all into gold  
Make everything glow again  
Make the stars shine  
The world is yours  
Turn all into gold  
Make everything glow again  
Make the stars shine  
The world is yours and mine  
Only you can change it  
Only you, only you can  
Turn all into gold  
Make everything glow again  
Make the stars shine  
The world is yours  
Turn all into gold  
Make everything glow again  
Make the stars shine  
The world is yours and mine
