

# You

Allie Moss

You have seen me at my best, worst  
When I have news to share you're the first one I call

You can always make me laugh when I'm mad  
You push me to do things that I am afraid of and I'm glad

I cannot remember  
Before we were together  
I cannot imagine  
Living without you, you, you

You have taught me to have a thicker skin  
And how to drive stick shift, how to give freely and love my body

I cannot remember  
Before we were together  
I cannot imagine  
Living without you, you, you

I cannot remember  
Before we were together  
I cannot imagine  
Living without you, you, you...
