You have seen me at my best, worst When I have news to share you're the first one I call

You can always make me laugh when I'm mad You push me to do things that I am afraid of and I'm glad

I cannot remember
Before we were together
I cannot imagine
Living without you, you, you

You have taught me to have a thicker skin And how to drive stick shift, how to give freely and love my bo dy

I cannot remember
Before we were together
I cannot imagine
Living without you, you, you

I cannot remember
Before we were together
I cannot imagine
Living without you, you, you...
