

# All the Rage

Allie X

I will be all the rage tonight  
Watch me shimmy into the light  
Filled with fury and starry eyes  
I will be all the rage

I will be all the rage tonight  
Watch me shimmy into the light  
Filled with fury and starry eyes  
I will be all the rage

Yeah the power made me numb  
Taking me up, taking me up, pushing me down  
I had a glimpse of you recall  
Chewing me up, chewing me up and spitting me out

Protected, I was rejected  
I wasn't good enough to be elected  
Lava, it was like lava  
Moving through my body like fire  
Protected, I was rejected  
I wasn't good enough to be elected  
Watch me take over the spotlight

I will be all the rage tonight  
Watch me shimmy into the light  
Filled with fury and starry eyes  
I will be all the rage

Give me the chords so I renew  
Cheering me up, cheering me up, when I was new  
I think the babysitter knew  
Nobody else, nobody else, had even a clue, even a clue

Protected, I was rejected  
I wasn't good enough to be elected  
Lava, it was like lava  
Moving through my body like fire  
Protected, I was rejected  
I wasn't good enough to be elected  
Watch me take over the spotlight

I will be all the rage tonight  
Watch me shimmy into the light  
Filled with fury and starry eyes  
I will be all the rage

Hey, oh, all right  
Alright, I will be all the rage

Protected, I was rejected  
I wasn't good enough to be elected  
Lava, it was like lava  
Moving through my body like fire  
Protected, I was rejected  
I wasn't good enough to be elected  
Watch me take over the spotlight

I will be all the rage tonight  
Watch me shimmy into the light  
Filled with fury and starry eyes  
I will be all the rage
