

# Downtown

Allie X

Love is a condition of the head  
Wanna push a button and reset  
But you're still up in my skirt  
I thought if you had a piece of me  
I could keep the other 2 or 3  
But now that's not how it works

I shouldn't be here right now  
But you got me figured out  
Pushing my pieces round, I know this game  
And I need a miracle  
To break from this ritual  
Till then I'll be saying the same thing

Take me downtown  
Use my body all night  
Make me feel like last time  
Make it taste like love  
Take me downtown  
Yours until my heart dies  
Give it up one last time  
Give it up for love

Give it up, give it up  
Give it up, give it up

Love is a condition of the head  
There is no prescription to forget  
So you're all over my brain  
You're the blue fix that makes me run  
I'll do anything to get me some  
Stop me before it's too late

I shouldn't be here right now  
But you got me figured out  
Pushing my pieces round, I know this game  
And I need a miracle  
To break from this ritual  
Till then I'll be saying the same thing

Take me downtown  
Use my body all night  
Make me feel like last time  
Make it taste like love  
Take me downtown  
Yours until my heart dies  
Give it up one last time  
Give it up for love

Oh  
Give it up  
Give it up
