

## Misbelieving

Allie X

Living grand, fat off the land  
Lick my lips and suck the bones dry again  
Raising kids, make a wish  
Count the days dead stars keep shining

We had all we needed  
Built up and burned down Eden

Too many colors left me blind  
My head won't let me back inside  
Whose voice gonna shout for us now?  
Whose choice when the options run out?

Take all you want, all you can eat  
Follow your dreams 'til you can't sleep  
We are dying while our hearts keep beating  
And I'm misbelieving

Prophet came, a profit made  
Sweet milk made of bitter child  
Poet schemes, robot dreams  
Were qualified but no one's hired

We had all we needed  
Built up and burned down Eden

Too many colors left me blind  
My head won't let me back inside  
Whose voice gonna shout for us now?  
Whose choice when the options run out?

Take all you want, all you can eat  
Follow your dreams 'til you can't sleep  
We are dying while our hearts keep beating  
And I'm misbelieving

Take all you want, all you can eat  
Follow your dreams 'til you can't sleep  
We are dying while our hearts keep beating  
And I'm misbelieving
