

# Never Enough

Allie X

Never enough  
Never enough

Love, you can chase it  
But it always leaves you behind  
Try to escape it  
But it's all that keeps you alive, oh

If I win the race, will I get the prize?  
Will I see your face when I close my eyes?  
When I touched the flame, felt the warning signs  
Wish that I had known  
Love is...

(Never enough) Going up in smoke  
(Never enough) We are choking on burning love  
Love is not enough  
(Never enough) Yeah, we came so close  
(Never enough) In the ashes of burning love  
Love is not enough

(Never enough)

Dreams become memories  
And water under the bridge  
And drown in these blankets  
Tangled up in the springs, oh

If I win the race, will I get the prize?  
Will I see your face when I close my eyes?  
When I touched the flame, felt the warning signs  
Wish that I had known  
Love is...

(Never enough) Going up in smoke  
(Never enough) We are choking on burning love  
Love is not enough  
(Never enough) Yeah, we came so close  
(Never enough) In the ashes of burning love  
Love is not enough

Never enough, never enough  
Never enough, never enough  
Never enough

If I win the race, will I get the prize?  
Will you say my name, say it one more time?  
It's a shaky game, when you roll the dice  
Wish that I had known

(Never enough) Going up in smoke  
(Never enough) We are choking on burning love  
Love is not enough  
(Never enough) Yeah, we came so close  
(Never enough) In the ashes of burning love  
Love is not enough

Never enough  
Never enough, never enough  
Never enough, never enough  
Never enough
