

Prime

Allie X

Optical illusion, sexual confusion
In the best way
Liberal perception, premature
connection
Always hearsay, always hearsay

We are in the prime of our existence

(But I think you know the truth it's
you)
We are running blind with no
resistance
(Oh, oh)

Why not give it a try
Be a beautiful monstrosity
When you're just getting by

And happily terminal
Yeah, breathe it until we're high

Have some fun, hope you see

Forget what I need
Give me what I want
And it should be fine x5

Fresh intoxication, retro retaliation
Do you feel me? Do you feel me?
Pointing my pollution, electro-
execution
Can you kill me? Can you kill me eh,
eh?

We are in the prime of our existence

(But I think you know the truth it's
you)
We are running blind with no
resistance
(Oh, oh)

Why not give it a try?
Be a beautiful monstrosity
When you're just getting by

And happily terminal
Yeah, breathe it until we're high

Have some fun, hope you see

Forget what I need
Give me what I want
And it should be fine x5

In the prime
You are my medicine

In the prime
You are my history
Only got a feeling that it won't

Got to give it up before my turn is up

Why not give it a try
Be a beautiful monstrosity
When you're just getting by

And happily terminal
Yeah, breathe it until we're high

Have some fun, hope you see

Forget what I need
Give me what I want
And it should be fine x5

You are my medicine
You are my history
You are my medicine
You are my history

Forget what I need
Give me what I want
And it should be fine
