Optical illusion, sexual confusion  
In the best way  
Liberal perception, premature  
connection  
Always hearsay, always hearsay

We are in the prime of our existence

(But I think you know the truth it's  
you)  
We are running blind with no  
resistance  
(Oh, oh)

Why not give it a try  
Be a beautiful monstrosity  
When you're just getting by

And happily terminal  
Yeah, breathe it until we're high

Have some fun, hope you see

Forget what I need  
Give me what I want  
And it should be fine x5

Fresh intoxication, retro retaliation  
Do you feel me? Do you feel me?  
Pointing my pollution, electro-  
execution  
Can you kill me? Can you kill me eh,  
eh?

We are in the prime of our existence

(But I think you know the truth it's  
you)  
We are running blind with no  
resistance  
(Oh, oh)

Why not give it a try?  
Be a beautiful monstrosity  
When you're just getting by

And happily terminal  
Yeah, breathe it until we're high

Have some fun, hope you see

Forget what I need  
Give me what I want  
And it should be fine x5

In the prime  
You are my medicine

In the prime  
You are my history  
Only got a feeling that it won't

Got to give it up before my turn is up

Why not give it a try  
Be a beautiful monstrosity  
When you're just getting by

And happily terminal  
Yeah, breathe it until we're high

Have some fun, hope you see

Forget what I need  
Give me what I want  
And it should be fine x5

You are my medicine  
You are my history  
You are my medicine  
You are my history

Forget what I need  
Give me what I want  
And it should be fine
