Allie X

We got the classic image  
We got the glossy finish  
Bringing back all that good shit  
Our love is vintage, uh huh  
We're driving through the moonlight  
Touching you just like you like  
Every kiss is timeless  
Our love is vintage, uh huh

In a fast car on a late night  
And I'm staring at your jawline  
You're killing me slowly  
(You're killing me slowly)  
Now you lean me on the sofa  
In a cloud of marijuana  
You're getting to know me

I need someone to love me right  
Who will give me peace of mind  
Who gon' be there day and night  
Alright, uh huh

Feel the bassline on the speaker  
And my waistline on your fingers  
You're killing me slowly  
(You're killing me slowly) Uh huh  
Now we're dancing on the border  
So romantic, pull me closer  
And right there you told me, uh huh

You need someone to love you right  
Who will give you peace of mind  
Who gon' be there day and night  
Well alright, uh huh
