

## Cold In California

Allison Moorer

The summer days are gone  
Along with you they disappeared  
and left me here  
Just like the falling leaves  
I watched you turn and drift away  
Nothing stays  
Don't want to face the fall alone  
But it's your nature to move on

Is it cold in California  
Like I told you it would be  
Do you need someone to warm you  
Like I warmed you  
Is it cold in California  
Like it is in Tennessee

Spent the holidays with a man made out of snow  
Ho ho ho  
Kept on building fires  
But they didn't ease the chill  
Nothing will  
This has been the hardest time  
Winter has the longest nights

Is it cold in California  
Like I told you it would be  
Do you need someone to warm you  
Like I warmed you  
Is it cold in California  
Like it is in Tennessee

I'll count the days until the spring  
And hope it brings you back to me  
Is it cold in California  
Like I told you it would be  
Do you need someone to warm you  
Be there for you  
Is it cold in California  
Like it is in Tennessee
