

Wish I

Allison Moorer

Wish I was really going
Wish I was a blacktop road
Wish I was a steamwheel
Wish I was a radio
Wish I was in your pocket
Wish I was on your mind
Wish I was a boot you're wearing
Wish I was your valentine

But I guess I ain't your Cinderella
And if you don't want me then I don't want you back
Can't stop the rain better hold an umbrella
I don't know much but I knew that

Wish I was your whiskey baby
Wish I was on your breath
Wish you would hold me like you hold your cigarette
Wish I had a song for you to make you love me
Wish I could sing for you
Wish I could make us right

But I guess I ain't your Cinderella
And if you don't want me then I don't want you back
Can't stop the rain better hold an umbrella
I don't know much but I knew that

Wish I was your California
Wish I was a shooting star
Wish I was your one and only
Wish I could break your heart
