

Dance With Me

Allister

Do you wanna dance with me baby
Come along we can do this all night
I'll take you by the hand maybe spin you right around
til we're feeling alright til we're feeling alright
We can jitterbug on down that line
maybe do the waltz in 3/4 time
Just get out on that floor we can do this all night
The band's got rhythm they've got style
They're gonna kick this party all night so let's go...
We're gonna dance the night away
We're gonna dance the night away
Let's dance, let's dance
Let's dance, dance, dance the night away
Do you wanna dance with me baby
Come along we can shake it all night
We can do the jump baby we can do the jive
til we're feeling all right
I'll make you strut in double quickstep time
Shimmy up and down the Samba line
Just get out on that floor baby do this all night
The lights are going down the mood is right
I can see it in your eyes that you are mine tonight
I'll pull you close, and never let you go
So pull me close and never let me go
