

Now it seems I've fallen victim to the same disease that's
eaten up the world
Our generation's gonna fall apart if we continue to be
pushed around
So now it's time to make a change
We gotta lock down and rearrange
And reject the fundamentals of society
The time has come to live my life
I'm gonna break out and do what I like
And I don't care what you say or think about me
Yeah, yeah
Now it seems we've fallen victim to hypocrisy and
Bureaucratic lies
They got us brainwashed
So we don't stand up and fight for what we think is right
So now it's time to make a change
We gotta lock down and rearrange
And reject the fundamentals of society
The time has come to live my life
I'm gonna break out and do what I like
And I don't care what you say or think about me
Yeah, yeah
Cause it's easy when you're free
Yeah it's easy when you're free
Yeah it's easy when you're free
Yeah it's easy when you're free
Yeah it's easy when you're free
It's easy when you're free
It's easy when you're free
Yeah it's easy when you're free
It's easy when you're free
