

## Radio Player

Allister

there's a broken needle scratchin my 45 collection  
through a burned out, blown 2-speaker combination  
there's nothin left to do but crank it up loud  
it's pumpin through my head and it's knockin me out  
it doesn't really matter what's goin on now  
cause all i wanna do is  
keep the radio playin all night long  
we left the radio playin all night long  
because the radio's playin all my favorite songs  
there's a broken CD player in the backseat of my car  
next to the pieces of what's left from my first guitar  
there's nothin left to do but crank it up loud  
it's pumpin through my head and it's knockin me out  
it doesn't really matter what's goin on now  
cause all i wanna do is  
keep the radio playin all night long  
we left the radio playin all night long  
because the radio's playin all my favorite songs  
we left the radio playin all night long  
we left the radio playin all night long  
because the radio's playin all my favorite songs  
some people say  
that my radio is dead  
but i won't let myself believe it  
we left the radio playin all night long  
we left the radio playin all night long  
because the radio's playin all my favorite songs  
we left the radio playin all night long  
we left the radio playin all night long  
because the radio's playin all my favorite songs  
we left the radio playin all night long  
we left the radio playin all night long  
because the radio's playin all my favorite songs  
we left the radio playin all night long (the radio, the radio)  
we left the radio playin all night long (the radio, the radio)  
because the radio's playin all my favorite songs  
(the radio, the radio songs)
