

Clock Runs Out

Allstar Weekend

Tic Toc it's over
I know your time is running out
Tic Toc going nowhere
I know your time is running
Time is running out (Running out)

You sure seem sorry to me now
You look good from the outside
(But I know you're not cool)
You played me, made me believe that
You'd be there when I need you
Now I know that's not true

You fooled me
And I'm no fool

You need to take time, take time
To clean up the mess
It's all for the best
I think that you should grow up, grow up
And figure it out what we're all about
Before the clock runs out

I'm finally living my life now (breathe in, breath out)
I'm breathing like I'm happy
I'm feeling good again (feeling good again)
You lost your way, lost your touch now (you've lost your touch)
You've got no values
You were never a friend

You fooled me
And I'm no fool
You need to take time, take time
To clean up the mess
It's all for the best
I think that you should grow up, grow up
And figure it out what we're all about
Before the clock runs out

Tic Toc it's over
I know your time is running out
Tic Toc going nowhere (you're going nowhere)
I know your time is running
Time is running out

You sure seem sorry to me now (it's not enough)
You look good from the outside
(But I know you're not cool)

You need to take time, take time
To clean up the mess
It's all for the best
I think that you should grow up, grow up
And figure it out what we're all about
Until the clock runs out

Take time, take time

To clean up the mess
It's all for the best
I think that you should grow up, grow up
And figure it out what we're all about
Before the clock runs out
Until the clock runs
