

# The American Dream

Allstar Weekend

The United States Government Presents:

I was born in Coastal Maine  
Then moved away south of LA  
San Diego knows my name (yo, what up Zach?)  
Now I live in cars and planes  
These long drives long flights  
I wouldn't trade for anything

Everybody wanna piece Americana (USA)  
But she don't come so easily  
All the kids are gonna do what they wanna  
And when we get older we can sing  
We're all around the world living The American Dream [x2]

Almost died in Carolina  
Crashed the van, it caught on fire  
If you've been down and out throw up your lighters  
We're a little older, little brighter  
Time goes by, time flies  
So don't you wait for anything

Everybody wanna piece Americana (USA)  
But she don't come so easily  
All the kids are gonna do what they wanna  
And when we get older we can sing  
We're all around the world living The American Dream [x2]

Most of my friends got college loans  
Sending them my love from the road  
Got souvenirs from 50 states  
Little magnets that say my name  
Am I famous? Eh, not quite.  
But shameless? You got that right.  
A toast you your wife, toast to your life  
Toast to the night, start it off right

We all around the world living The American Dream [x2]

Everybody wanna piece Americana (USA)  
But she don't come so easily  
All the kids are gonna do what they wanna  
And when we get older we can sing  
We're all around the world living The American Dream [x2]
