

## Last Chance

Allure

This is my last dance with you  
This is my only chance to do  
All I can do  
To let you know that what I feel for you is real

This is the last chance for us  
This is the moment that I just cannot let end  
Before I know that there's a chance  
We're more than friends

So don't let go  
Make it last all night  
This is my last chance to make you mine.

I hid my feelings so deep  
I kept my dreams of you and me  
Somewhere inside  
Although I pray that you would see it in my eyes

But this is my last chance to say  
What's in my heart before you fade out of my life  
And never understand the way I feel inside

So hold me close  
Coz it feels so right  
This is my last chance to make you mine...

(make it real) Make this dream reality  
So close and yet so far  
Gotta find a way to your heart  
(speak my mind) Gotta speak my mind  
Gotta open up to you this time  
I can't let you slip away.. Tonight...

This is my last dance with you  
This is my only chance to do  
All I can do  
To let you know that what I feel for you is real  
So don't let go  
Make it last all night long  
This is my last chance to make you mine...  
To make you mine....
