

# Invisible Cage

Almah

Find out the intentions  
Behind eyes temptations  
Who gets the keys to the stars?

You try all the reasons  
To find all solutions  
But you cannot seem to describe

How cold is it inside your heart?  
"Inside your heart"  
An empty field to remind  
Like Jesus you feel piercing thorns in your face

Run to reach your finest days  
Bad memories fade  
You take the pain away  
Invisible cage

Cry out your sensations  
The true revelations  
You're lost in the middle of time

You feel scars still linger  
You flow like a sinner  
Snake searching victims at night

How cold is it inside your heart?  
"Inside your heart"  
An empty field to remind  
Like Jesus you feel piercing thorns in your face

Run to reach your finest days  
Bad memories fade  
You take the pain away  
Invisible cage

You have been searching yourself for so long!

Run to reach your finest days  
Bad memories fade  
You take the pain away  
Invisible cage

Run to reach your finest days  
Bad memories fade  
You take the pain away  
Invisible cage
