

Candle In The Night

Almora

Your way is flame with starlights
Your soul is song in the silence
For love that inside of you
As calling of life...
As calling of life...

Your soul that inside of you
And your heart lonely in the night
For light that inside of you
As calling of life...
As calling of life...

Fly as an angel to the sky
You need only force of your heart
Your little crying heart
As a candle in the night
