

Somewhere Not Here

Alpha

I remember when you came
I can just recall that day
Unexpected, undetected
If I'd have known I still would have done it.

So little time, so long to wait
A paradise, within your eyes
All the things I could tell you
All the things I could show you.

You're my waking thought
You're the smile on my lips
I dream I see your face
I see and dream of you.

You were safe and warm
I was in your hands
We were moved in time
To another space.

Somewhere, not here
Somewhere, not here
So, little time
So, little time.

You were safe and warm
I was in your hands
We were moved in time
To another space.

A thousand miles away
I'd like to fly to you.

I immerse myself
I dream, I see your face
I see, I dream of you
If you were here we'd watch
If you were here we'd see.

You're my waking thought
You're the smile on my lips.

You were safe and warm
I was in your hands
We were moved in time
To another space.

Somewhere, not here
I know you are somewhere, not here
You're my waking thought
You're the smile on my lips
Are you thinking of me
Do I invade your sleep
A paradise, a paradise
Within your eyes.

I remember when you came

I can just recall that day
Somewhere not here
Somewhere not here
Somewhere.
