

# Waiting

Alpha

Make me hopeless baby  
Move the light and shade me  
Take my sight and blind me  
Leave a taste to remind me

The clouds openly like raining for you  
So have and hold me  
A moment told me  
I need always with you

Make me hopeless baby  
Coloured skies are fading  
Only silence surrounds me  
Need you're touch to refine me

And i openly like waiting for you  
To have and hold me  
A moment told me  
I need always with you
