

DJ

Alphabeat

I need something I can dance to
On and on
Spin my world like a record now
On and on
Give me something I can dance to
Something I can count on
On and on
Spin my world like a record now
On and on
I need something I can dance to

And every night I pray
You'd let me
Can you hear me now DJ
You're gone tomorrow but
Just let the music play
Just let me
Just let the music play
Let the music play

I could be dancing
I could be dancing all night
If you would play
I would be dancing
I would be doing all right
If you would play

I need something I can turn to
Now and then
Take me out
Out and out
On and on
I need something I can turn to
Something I can count in
Day and night
On and on
Like a record now
Out and out
I need something I can dance to

And every night I pray
You'd let me
Can you hear me now DJ
You're gone tomorrow but
Just let the music play
Just let me
Just let the music play
Let the music play

I could be dancing
I could be dancing all night
If you would play
I would be dancing
I would be doing all right
If you would play

If you would play

DJ

If you would play

DJ

I could be dancing

I could be dancing all night

If you would play

I would be dancing

I would be doing all right (all right)

If you would, you would, you would, you would play

Whoa-oh-oh-oh

I would be dancing

I would be doing all right (all right)

If you would play

Just let the music play

Let the music play

Just let the music play

All night

All right

Just let the music play

Let the music play

All night

Let the music play

All night

Just let the music play

Let the music play

All right

Just let the music play
