

Yeah, it keeps messing up my lipstick,
My feet keep taking me to your street
'Cause there's a chance I'll meet you
That's what I want to do
I keep looking for a chance
A chance to steal a dance off you
That's what I want to do

Come on, please take my hand
I need somebody to understand
I need somebody to show the way to go, go

I can't stand up
I can't get down, down, get down, get down, go, go
I can't stand up
I can't get down, down, get down, get down, go

Unless I'm making a mistake
We've got some loving to make
Ooh, that's what I want to do
My feet keep taking me to your street
'Cause there's a chance I'll meet you
That's what I want to do

Come on, please take my hand
I need somebody to understand
I need somebody to show the way to go, go

I can't stand up
I can't get down, down, get down, get down, go, go
I can't stand up
I can't get down, down, get down, get down, go

When you come around, I fall to the floor
I hammer on the door a million times or more
When you come around (what do you do?)
I hammer on the door a million times or more
When you come around (what do you do?)
I hammer on the door a million times or more

I can't stand up
I can't get down, down, get down, get down, go, go
I can't stand up
I can't get down, down, get down, get down, ooh
