

Call Me Down

Alphaville

Call me down when no one's around
I'm spinning down to the ground
Don't say no, there's nowhere else to go
I need to be there tonight

Sunlight, shadow, night on day, no beginning anyway
Are you my twin? Or opposite? There is no clear solution
Darkness, light, black & white, some are wrong and some are right
To know me better merely takes higher resolution

To know me better merely takes some kind of illusion
Call me down when no one's around
I'm spinning down to the ground
Don't say no, there's nowhere else to go
I need to be there tonight
