

Dangerous Places

Alphaville

People buzzing around, they don't know a thing
They just a laugh and the ones in power
Are always pulling the strings
People do what they do, how much can they take
They just get the news and the ones in power always get the cake

But you got ambition, you got the face, come on,
Let's go to a dangerous place
You got the class, I think you're desperate
Let's go to a dangerous place
Come on - let's go, come on - let's go, come on...

I promise this thing will sell, I promise I'll take you to heaven
I promise this thing will sell, And I just can't wait

You have your plans, all these plans
And there are moments, shall I call them a chance
If I was you I would make them all mine
And if I ain't got the power I would commit a crime

Buy you got ambition... I promise this thing will sell...

I'm gonna make you a deal, you know your friend
I'm gonna stay with you until the very end
I know you got the guts, I got a lot of time
I'm gonna make me yours before I make you mine
