

Return to Paradise

Alphaville

Kings and queens and frogs and princes
Gnomes and dwarfs and dragons old
Treasures hidden, golden sphinxes
Lovely maiden, giants bold

Hush, my little lovely darlings
Dream on through the deepest night
Here's a kiss for each of you
Wonder where you're going to

When you're sleeping tight
Return to paradise

Sometimes when it's really quiet
I come running to your bed
Listen hard to hear you breathing
Stroke your tender little heads

You are flowers sent from heaven
On a gentle golden breeze
Here's a kiss for each of you
Maoamoondog's singing too

Lullabies of peace
Return to paradise
Return to paradise
Return to paradise

On a ship to elfland wonders
Just a little trip away
There you're playing in the starshine
Underneath the milky way

All the angels in their glory
Will be watching over you
Dream on while the stars are falling
(Falling on you)

May your dreams come true
Return to paradise

May your dream come true
May your dream come true
Return to paradise
