

# Electricity Drive

Alphawezen

Give me a mystery  
Electricity drive  
Give me a deeper sound  
Give me some life  
Give me a world in motion  
A planet on the run  
Give me a sweet distortion  
A hundred voices within one  
Give me  
Echoing through the sonic night  
Give me a mystery  
Still dreaming about your light  
Electricity  
Electricity drive  
You are inside  
You and Your light  
Your light every night  
You are inside  
You and your light  
Your light every night  
Give me a world in motion  
A planet on the run  
Give me a sweet distortion  
A hundred voices within one  
Give me  
Echoing through the sonic night  
Give me a mystery  
Still dreaming about your light  
Electricity  
Electricity drive  
Give me a mystery  
Electricity drive  
Give me a deeper sound  
Give me some life  
You are inside  
You and your light  
Your light every night
