## Rain

## **Alphawezen**

Rain, lovely rain
Purge my mind of sticky thoughts

And let it rain Lovely rain, come and wash away

Lead me astray  $% \left( 1\right) =\left( 1\right) \left( 1\right) +\left( 1\right) +\left( 1\right) \left( 1\right) +\left( 1\right) \left( 1\right) +\left( 1\right) +\left( 1\right) \left( 1\right) +\left( 1\right) +\left( 1\right) \left( 1\right) +\left( 1$ 

One more day
To wax and wane

I was lost within your frequencies How beautiful your song

Now we're older than we used to be It seems like we are gone
