

## Softsides

## Alpine

Gotta step away from my heart  
Fragments of myself I forgot  
I'm gonna go where it's dark  
Rest my head against the stone

In the way  
I feel it all around  
You ride (all around)  
You ride, away

Sit still  
Hold on  
I'm here  
I know that this is forever

I have dreamed away what I've got  
Dust and dusk can settle, I choke  
I'm gonna go where it's dark  
Throw the stone away, this day

Sit still  
Hold on  
I'm here  
I know that this is forever

That this is forever  
You ride, away  
Forever  
You ride, away
