```
Want to sail
Way away
Across this big water
Feeling sick
Of this land
Need a Chandon
```

You're shit, you make me want to look at others Right now, you really want to make me scream I think I'm falling out of love now I feel too safe with you I feel too safe with you

Want to sail
Way away
Across this big water
Feeling sick
Of this land
Need a Chandon

You're shit, you make me want to look at others Right now, you really want to make me scream I think I'm falling out of love now I feel too safe with you I feel too safe with you

Feel too safe with you
Feel too safe with you (I feel safe)
Feel too safe with you (Feel too safe)
You
You...
