

Life of Sorrow

ALSDEAD

Take it ... break it...Why judging me?
What's that? Fuck it
You just a fool I see

Don't tell me how to live
Don't tell me how to die

This shit is getting old
Monkey stabbing its all untold!
You take a piece of death
Gasping for one last breath

So! Let me live my life!

You know I don't give a fuck!
You want a piece of me?!

Death! where you at?

kanashimi kara nigetemo tsuyoku narenai...
demo muki aenai
shinjitsu wa motomeru hodo zankoku de
shireba shi ni takunaru youna kotomoatte
dounikashite wo ketsubetsu wo

So I wanna run away, this fuck'n pain inside
You tell me to fight it, but I deny it
your demented fuck'n face stares through my eyes
Why can't I find that million to one oh reason
Keeps me standing on the edge of life
with my fist I fight

tokeru youna kisu wo shite
tsukande kitamonoga kuzurenai youni
setsunakute kuyashikute sunao ni narenakunaru
hanayaka ni mieru kako ga koishikute
omoi no hate... hangyaku wo!

So I try to save the life, of my memories inside
I'm trying to hold it, and not destroy it
the mirage of a sweet kiss, from your lips of wine
Why can't I find that million to one oh reason
Keeps me standing on the edge of life
I wanna run away. . .
there's a story behind my scar...

Life Of Sorrow!
Life Of Sorrow!
