

## Buffalo

Alt-J

Breathe on me my buffalo  
Your eye warms to a warning  
Of a death without words

I am ill  
After swallowing cups of pride  
Inside it paints me  
With the bitterness I loathe  
For the future tributes  
Of Thom Sonny Green

Breathe on me my buffalo  
Your eye warms to a warning  
Of a death without words  
I am ill  
After swallowing cups of pride  
Inside it paints me  
With the bitterness I loathe  
For the future tributes  
Of Thom Sonny Green

The buffalo from buffalo  
Who are buffaloes by the buffalo  
From buffalo  
Buffalo are the buffalo from buffalo

And all's above lay  
Pay tribute to the future death  
Of our Thom Sonny Green
