

# Bleed It Dry

Alter Bridge

Oceans rise, summits fall  
Fading fast it won't be long  
Everything will be consumed, rendered lost  
At the hands of fools tomorrow's gone  
So say goodbye

Bleed it dry, leave us here with nothing  
Justify all that you consume  
Bleed it dry, what is this becoming?  
All your lies serve no one but you

Blood machines burn the skies  
Turning day into night  
Everything will fade to dust again, weak or strong  
So don't pretend you've done no wrong  
Cause you know that I'm right

Bleed it dry, leave us here with nothing  
Justify all that you consume  
Bleed it dry, what is this becoming?  
All your lies serve no one but you

One day you will see what you've done  
The world you chose to bleed will be dead and gone

Bleed it dry, leave us here with nothing  
Justify all that you consume  
Bleed it dry, what is this becoming?  
All your lies serve no one but you
