## Coeur d'Alene

## **Alter Bridge**

When all the lights have faded The encore's come and gone And I can't take this no more

Well I can't keep pretending
I just can't play the part
I need the solace of her shore
I need the solace of her shore

Coeur d'Alene is calling out And it won't be long Coeur d'Alene I'm coming now Where I still belong

I look into the mirror I don't know who I am The lives are torn apart

I still long for the simple I'm just a common man And with this aching heart

Coeur d'Alene is calling out And it won't be long Coeur d'Alene I'm coming now Where I still belong

Safe at last in your arms
I'm safe at last in your arms

Coeur d'Alene is calling out Where the water's calm Coeur d'Alene I'm coming now And it won't be long
