

Indoctrination

Alter Bridge

It's time
Want to take you as you are
Just purse your lips
And close your eyes

So sweet
The nectar of your heart
Take me in
I'll make you mine

I'm in your head, you can't deny it
You're hanging on my every word
Now I've got you under my spell
Indoctrinated in the fire
And though I've seen you at your worst
Surrender, I will never tell on you

You're seduced
You're right where you belong
You're so confused
Watch my colors turn tonight

I'm in your head, you can't deny it
You're hanging on my every word
Now I've got you under my spell
Indoctrinated in the fire
And though I've seen you at your worst
Surrender, I will never tell on you

I'm the fool's messiah
I turn you on with fire
I'm the fool's messiah
Take me in tonight

Like a moth to a flame
You will give as I take your mind
So don't be afraid
I will leave you satisfied

I'm in your head, you can't deny it
You're hanging on my every word
Now I've got you under my spell
Indoctrinated in the fire
You know this doesn't have to hurt
Surrender, I will never tell on you

I'm the fool's messiah
I turn you on with fire
I'm the fool's messiah
Take me in tonight
