

# Isolation

Alter Bridge

When all is lost to you inside  
When all the darkness takes the light  
The ritual it has begun  
And now you tear away from everyone  
Disconnected so alone yeah  
Severed ties from all you know

Isolation Brings you to the end  
Until you love again  
Isolation If you could only see  
What will come to be  
Yeah!

Justify you waste away  
You dare to dream but still you're too afraid  
And now you're broken and deceived  
Lost to live this cruel reality  
You're disconnected so alone  
Severed ties from all you know

Isolation Brings you to the end  
Until you love again  
Isolation If you could only see  
What will come to be  
Yeah!

Maybe you'll stand  
Maybe you'll give and break to find another way  
And make things better  
Maybe you'll find  
A life you can live and learn to love along the way  
And make things better  
And make things better

Isolation Brings you to the end  
Until you love again  
Isolation If you could only see  
What will come to be  
Yeah!

Isolation Brings you to the end  
Until you love again  
Isolation If you could only see  
What will come to be

You're disconnected so alone  
What will come to be?  
You're disconnected so alone
