

# Make It Right

Alter Bridge

How many times have you cut only to feel the pain  
How many days have you run only to crawl  
How many nights did you scream, only to scream in vain  
How many years till you face the shame of it all

Into the fire you fall  
If only you can make it right  
Stand up and fight for resolve  
If only you can make it right

How many lies did you steal just to convince the fool  
How many masks did you wear disguise and remove  
How many years till you break all that keeps breaking you  
How many tears will you waste while finding the truth

Into the fire you fall  
If only you can make it right  
Stand up and fight for resolve  
If only you can make it right

Into the fire you fall  
If only you can make it right  
Stand up and fight for resolve  
If only you can make it right

There comes a time  
When one must decide  
The life they are living is far from true

Lost and deceived  
Nothing to believe  
I know I have so much yet to prove  
Prove  
I've yet to prove  
Prove

Into the fire you fall  
If only you can make it right  
Stand up and fight for resolve  
If only you can make it right

Into the fire you fall  
If only you can make it right  
Stand up and fight for resolve  
If only you can make it right
