

Tear Us Apart

Alter Bridge

Blind sided once again
Fooled by the fool within
You know
You're dead to a sacrifice
Slowly you wake to find
No hope
Withered and burning red
The promises you left for dead
Go cold
But this too will surely fade
This truth you cannot escape
That we have to face
And learn from mistakes to grow

Don't let the world tear us apart
Don't live a lie, don't break a heart
Don't compromise just wait

Drink from a poisoned well
Only to kill yourself
Alone
Wake up and take a stand
While there is still a chance
Let go
Hatred cannot replace
The love you are meant to save
And hold
Silence the great divide
This truth you cannot deny
We have to face
And learn from mistakes to grow

Don't let the world tear us apart
Don't live a lie, don't break a heart
Don't compromise just wait

If there is something worth saving
Let it show
If there is something worth changing
Let it go
Cause time is only wasting
Now you know

Don't let the world tear us apart
Don't live a lie, don't break a heart
Don't compromise just wait
Don't compromise just wait

Don't let the world tear us apart
Tear us apart
Tear us apart
