

# The End Is Here

Alter Bridge

Endless days  
We search for what we hold inside  
So hard to find  
Luck turns  
Will the fallen ever reach within  
And rise again

For the rest of my life  
I'll find the answers  
That were always here  
I'll find the meaning this time  
I'll fight the end  
Till the end is here

Wasted time  
With words that seem to break our will  
They bind us still  
Without a care  
They tarnish what we hold so dear  
What was once so clear

For the rest of my life  
I'll find the answers  
That were always here  
I'll find the meaning this time  
I'll fight the end  
Till the end is here  
(2x)
