

# Heartbreak Horizon

AlunaGeorge

Step on it like a taxi driver  
Not gonna tell you which way to go  
I'll just give you my destination  
Only cause you can take it slow

I'm way ahead of you  
Way ahead of ya, way ahead ya  
So keep your eyes on the road  
If I catch ya, if I catch ya  
If I catch you in the rearview mirror  
Don't let ya, don't let ya  
Don't let your mind unfold  
Kill the map and let the meter run  
Kill the map and let the meter run  
Get lost and ride into the sun  
Let you know when we're done  
Get me outta here right now  
Don't matter where, don't care how  
Get lost and ride into the sun  
To the heartbreak horizon

Just when I feel the wind whip in my hair  
You can work it out, how fast to go  
Use some real life communication  
Lucky I know what words don't show

I'm way ahead of you  
Way ahead of ya, way ahead ya  
So keep your eyes on the road  
If I catch ya, if I catch ya  
If I catch you in the rearview mirror  
Don't let ya, don't let ya  
Don't let your mind unfold

Kill the map and let the meter run  
Kill the map and let the meter run  
Get lost and ride into the sun  
Let you know when we're done  
Get me outta here right now  
Don't matter where, don't care how  
Get lost and ride into the sun  
To the heartbreak horizon  
Kill the map and let the meter run  
Kill the map and let the meter run  
Get lost and ride into the sun  
Let you know when we're done  
Get me outta here right now  
Don't matter where, don't care how  
Get lost and ride into the sun  
To the heartbreak horizon

Pain falls away 'til I  
Can't find a way after  
Heartbreak horizon  
Take me there  
Don't put the brakes on me  
You know the way to the

Heartbreak horizon  
Heartbreak horizon

Kill the map and let the meter run  
Kill the map and let the meter run  
Get lost and ride into the sun  
Let you know when we're done  
Get me outta here right now  
Don't matter where, don't care how  
Get lost and ride into the sun  
To the heartbreak horizon  
Kill the map and let the meter run  
Kill the map and let the meter run  
Get lost and ride into the sun  
Let you know when we're done  
Get me outta here right now  
Don't matter where, don't care how  
Get lost and ride into the sun  
To the heartbreak horizon
